

**6. Name of the Project: Catalyzing Ecosystem Restoration for Climate resilient Natural Capital & Rural Livelihoods in degraded Forests and Rangelands of Nepal (EbA II)**

**Objective:** Enhance the capacity of the Government and local communities to adapt to climate change by implementing EbA in degraded forests and rangelands in Mid-hills and high mountain areas.

**Expected Outcome:** Increased capacity of government officials and local user groups to implement EbA through enhanced institutional arrangements, inter-sectoral collaboration and research; National Policies and Strategies strengthened to promote EbA implementation; EbA implemented and monitored by user groups to restore forests and rangelands and to decrease the sensitivity of local communities to climate change.

**Area of Coverage:** Accham, Salyan and Dolakha
