

Building Capacity to Advance National Adaptation Plan Process in Nepal (GoN/UNEP/GCF)

UNEP is executing the Green Climate Fund (GCF) funded project entitled "***Building Capacity to Advance National Adaptation Plan Process in Nepal***" to support Government of Nepal. This project supports the Ministry of Forests and Environment to reduce vulnerability to climate change, and increase resilience through integration of climate change adaptation into development planning processes by implementation of its program and actions under its four components: I. Technical and Institutional Capacity for the NAP Process in Nepal II. Climate Information Systems developed and strengthened III. Funding Strategy for NAP Process including for its implementation IV. Monitoring, Reviewing and Reporting of the NAP Process in Nepal.

This job opening is to hire a highly qualified and dedicated Nepali ***Climate Change Adaptation Monitoring and Review Expert*** to deliver some of the works to a high standard. The consultant will work in close collaboration with the GoN/UNEP/GCF/NAP Project PMU in Nepal and the Climate Change Management Division of the Ministry of Forests and Environment.
